CIRCULAR

Dated Kohima, the 19<sup>th</sup> June, 2026

**No. NBE-3/Co-CC/2020-2021:** In pursuance of the Government of Nagaland letter No. DSE/MISC/12-18/2026 dated 15th June 2026, all Heads of institutions registered under the Nagaland Board of School Education (NBSE) are hereby informed that schools maintaining their own websites are requested to migrate to one of the approved education-specific **domain extensions**, namely "**ac.in, edu.in, res.in, or school.in**", if they are currently using any other domain name.

This measure is being undertaken to ensure authenticity, credibility, data security, and a uniform digital identity for educational institutions. It is essential that all institutions operate their official websites under the approved educational domain extensions, which are designated exclusively for educational institutions in India and are subject to verification and regulatory requirements.

\* Adoption of these domains will strengthen digital governance, enhance institutional credibility, and provide greater protection against cyber misuse, impersonation, and misinformation. It will also facilitate easier identification of genuine educational institutions by students, parents, and other stakeholders.

In view of the above, all registered schools having their own websites are requested to complete the migration of their websites to the approved academic domains on or before **31 December 2026** and ensure that their official online presence is maintained through these verified domain extensions. Schools are also requested to appoint a nodal officer to coordinate with ERNET India regarding the migration process.

The cooperation of all institutions in this matter is solicited.

For any queries relating to domain registration services, institutions may contact:

**Dr. Tejal Tiwary**

Additional Director, ERNET India
